## 2. State-Licensed Companies and Individuals

While most state-licensed companies and individuals work in just one state, the number of entities working in multiple states is growing at a faster rate. The total number of state-licensed MLOs grew $8 \%$ over the past year, while the total number of MLO licenses grew $28 \%$. The average number of state licenses held by an MLO in 2013 was 2.54 licenses per MLO, up from 1.8 licenses per MLO in 2011.

The total number of state-licensed companies declined, but the number of company licenses held grew over the past year.

| Licensee Type | Entities | Annual <br> Growth | Licenses | Annual <br> Growth |
| :--- | ---: | ---: | ---: | ---: |
| Mortgage Companies | 16,178 | $-2 \%$ | 34,998 | $4 \%$ |
| Mortgage Branches | 19,976 | $6 \%$ | 38,595 | $17 \%$ |
| MLOs | 130,311 | $8 \%$ | 331,351 | $28 \%$ |

## Change in Approved MLO Licenses

State licenses managed on NMLS are approved for a calendar year and on December 31, a significant number of MLO licenses are not submitted for renewal and become expired. This graph shows the monthly number of approved MLO licenses over the past three years. Total MLO licenses have grown both year over year and throughout the year from 2011 to 2013.

## MLO License Growth and Attrition by State

Over the past year, MLO populations grew in every state. Many of the states that saw the largest growth were the same states who adopted the Uniform State Test, which streamlined the addition of new licenses for MLOs who work in multiple states.

## Notes

1. The Hawaii Division of Financial Institutions has indicated that it is not able to release the number of license applications denied.

## Definitions

Approved-Status assigned when regulator has reviewed the license/registration application and decided to issue a license to the applicant through NMLS.
Denied-Status assigned when a regulator has reviewed the license/registration application and determined that sufficient grounds exist to deny the request. This status may also be used by regulators who deny a renewal request for license.
Withdrawn- Status assigned when an applicant has been approved to voluntarily withdraw their application or has not responded to regulator requests for additional information within a timely manner.
Revoked-Status assigned when a regulator has taken action to revoke the license/registration. Pursuant to federal SAFE legislation, placement of a MLO license into this status will render the MLO unable to obtain or maintain a license to conduct mortgage business in any jurisdiction.
Surrendered-Status assigned when a regulator approved a surrender/cencellation request submitted by the licensee/registrant.
Terminated-Status assigned when a regulator expires a license/registration.

## 3. Mortgage Call Report

Starting in 2011, state-licensed mortgage companies began submitting a quarterly call report of mortgage activity through the NMLS Mortgage Call Report.

State-licensed companies' originations doubled during 2012 driven primarily, but not solely by refinance transactions. Originations declined throughout 2013, almost entirely due to decline in refinance transactions.

Loans by Purpose by Quarter

## Loan Origination by Number of Licenses Held by the Company

Companies who operated in only one state originated 20\% of loans reported in NMLS Mortgage Call Reports for 2013. Companies who operated in over 20 states originated $46 \%$ of the total.
