

NMLS Policy on Approved and Not Approved Topic List for Pre-Licensure and Continuing Education Intended to Satisfy SAFE Act Education Requirements

**May 29, 2018
Version 2018.2**

Purpose

The purpose of this document is to identify the pre-licensure (PE) and continuing education (CE) topics NMLS has determined will satisfy the education requirements of the SAFE Act. This document also identifies specific topics that are required to be covered as part of annual CE. The required topics for CE are updated annually.

Background and Reason for this Document

In accordance with the SAFE Act, as a condition for acquiring a state-issued MLO license, individuals are required to complete 20 hours of pre-licensure education which shall include 3 hours of Federal Law, 3 hours of Ethics (which shall include fraud, consumer protection, and fair lending), 2 hours of Non-Traditional Mortgage Lending, and 12 hours of undefined education (electives). As a condition to maintain a state-issued MLO license, MLOs are required to complete 8 hours of annual continuing education which shall include 3 hours of Federal Law, 2 hours of Ethics (which shall include fraud, consumer protection, and fair lending), 2 hours of Non-Traditional Mortgage Lending, and 1 hour of undefined education (elective). In addition to the required hours as identified in the SAFE Act, state agencies can also establish additional requirements.

An initial version of this document was published to industry in April 2009, and was amended in 2012, and just included approved and not approved topics. Topics were not identified as being more suitable for PE or CE. This version of the document segments the topics by PE and CE and is intended to help reduce situations where CE is duplicative of PE. It is also intended to align with the new expanded test content outline. Topics have also been included which we believe will help to better inform individuals who are new to the industry of the phases of the mortgage lending process, the role of a mortgage loan originator (MLO), and how various laws and the MLO support consumer protection.

The approved topic list, especially the PE section, includes a significant number of topics and sub-points. We recognize it would be a challenge for any course provider to provide instruction on every point in 20 hours. Accordingly, as a condition for course approval not every topic is required to be included in course content. That said, this document does align with the expanded test content outline and there is an expectation that individuals taking and passing the MLO SAFE Test will possess sufficient knowledge on each of the published topical areas.

In coordination with state regulators and the Multi-State Mortgage Committee (MMC), annual continuing education is required to include specific topics that have been identified as reoccurring problems on mortgage exams. It is the view of NMLS that one of the intentions of the CE requirement of the SAFE Act was to ensure MLOs stay current on issues pertaining to the accepting and negotiating terms of a residential loan application. The topics listed as “required” will need to be covered in the designated calendar year. NMLS is not defining how much time must be spent on each of the required topics nor is it envisioned that the topics will consume the full two or

three hours of ethics or federal law. However, with the continued input of state regulators and the MMC, the topic list will be refreshed during the first quarter of every year and the new topics will be required to be instructed the following year (for example, topics have been identified in the 2018 version of this document are for instruction in 2019; during the first quarter of 2019 new topics will be published for instruction in 2020).

Topic List Quick Links:

[Pre-licensure Education \(PE\) Topic List:](#)

The Course Provider Working Group (CPWG) reviewed the PE topic list in April 18, 2017; the Mortgage Testing and Education Board (MTEB) reviewed and approved the list on April 20, 2017.

[Continuing Education \(CE\) topic list for Annual CE Year 2018:](#)

The Course Provider Working Group (CPWG) reviewed the 2018 CE topic list in April 18, 2017; the Mortgage Testing and Education Board (MTEB) reviewed and approved the list on April 20, 2017. The required topics are for CE to be delivered between January 1 and December 31, 2018.
