

Multistate MSB Licensing Program

Phase One Application Checklist

CHECKLIST SECTIONS

- [General Information](#)
- [License Fees](#)
- [Phase One Requirements](#)
- [Phase Two Requirements](#)

GENERAL INFORMATION

Completion of Phase One does not lead to a license in each state. Before a license will be issued a Phase Two must be completed in each state. Applicants should see each state's "Phase Two" information below for the states they are interested in. This document provides the particulars about what activities are covered under that state's money transmitter license type and the applicable pre-requisites for license applications. Please note, however, that each state is the final authority on what is required for licensure in their state. Contact that state directly with any questions.

Potential Disqualifiers from the Multistate Protocol

- Company is headquartered outside the United States
- Company provides services to the marijuana industry
- Company has prior unlicensed activity
- A control person has a felony or a financial or dishonesty-related misdemeanor

Activities Authorized Under This License

Note: Several of the states have different license types. Please verify you are applying for the correct type of license. See the table below. If you have questions about the correct license type or whether a license is needed, please contact the requisite state agency. Each state is the final authority on whether a license is required.

1. Georgia has 2 license types: MT (Money Transmission) and SPI (Seller of Payment Instruments).
2. Massachusetts has 2 license types: FTA (Foreign Transmittal Agency) and CS (Check Seller).
4. South Carolina, Vermont, and Washington have 2 license types: MT (Money Transmission) and CX (Currency Exchange) – Vermont's CX license covers check cashing in addition to currency exchange. South Carolina and Washington's MT license covers currency exchange; CX licenses should only be obtained for companies wishing to do only currency exchange.
5. Connecticut, Georgia, Louisiana, Maryland, Massachusetts, Ohio, Rhode Island, South Carolina, Tennessee, Utah, and Washington also have another license type, CC (Check Cashing), but it isn't covered under the MMLA.
6. Maine's Money Transmitter License allows for CC (Check Cashing) and CX (Currency Exchange). If the applicant only needs a CC and/or CE license, then they should contact the state directly. The CC and CE licenses are handled outside of NMLS.

Note: Several of the states also have limitations on the type of activity they regulate

1. Illinois regulates selling prepaid access but not the issuance of prepaid access.
2. Massachusetts only regulates foreign transmissions and not domestic-only transactions (FTA).
3. Michigan regulates closed-loop prepaid access only if the funds on it exceed \$2,000 on any day.
4. Indiana, North Carolina, and Wyoming only regulate activity for personal, family, or household use.

Document Uploads Guidance

Documents that must be uploaded to the *Document Uploads* section of the Company Form (MU1) in NMLS are indicated in the checklist below. When uploading documents:

- Follow the guidance in [Document Upload Descriptions and Examples](#).
- Only upload documents relevant to the company application.
- Only upload documents where there is a selectable document category. If inappropriate documents are uploaded that should not be, you will be contacted by your regulator and asked to remove them from NMLS.
- Do not upload the same company documents multiple times. Generally, unless the document is state-specific, if the document has already been uploaded for another state, a new upload is not required unless it has changed.

¹ Currency Transmitter License

- If a document previously uploaded has been revised, delete the old document and replace it with the new document (history of the old document will remain in NMLS).
- For state-specific documents (e.g., Document Samples), be sure to indicate the applicable state.
