SERVICING TRANSFERS DURING THE QUARTER		
LS100	Loan Servicing Transferred In During the Period	A mortgage servicer, among other things, collects and processes loan payments on behalf of the owner of the mortgage note. Servicing transfers are common and may occur in several ways. The mortgage owner may sell the rights to service the loan, called the Mortgage Servicing Rights (MSR), separately from the note ownership. The owner of the loan or MSR may, rather than servicing the loan itself, hire a vendor – typically called a subservicer – to take on the servicing duties. MSR owners frequently sell MSR outright as an asset. Servicing transfers may also occur through whole loan servicing transfers or whole loan portfolio transfers, rather than through sales of MSR. For MCR purposes, we are using the term “transfer” broadly to cover transfers of servicing rights as well as transfers of servicing responsibilities through subservicing or whole loan servicing arrangements. For LS100, report this information as it relates to transfers into the entity.
